

Adobe Photoshop: Advanced

This course is designed for anyone seriously interested in delving into the hidden power of Photoshop. If you need to manipulate images for 3D modelling, generate a video or prepare them for your website then all this is covered in this advanced course. You also learn how to make sure your projects are colour consistent before sending them to be printed or placed in to your desktop program.

In this course, you will:

- Use advanced compositing techniques to create a montage
- Edit video
- Use the paint mixer brush
- Work with 3D images
- Prepare files for the web
- Producing and printing consistent colour

Course Length: 1 day

Course Content

Advanced Compositing

Arranging layers

Using Smart Filters

Painting a layer

Adding a background

Automating a multistep task

Upscaling a low-resolution image

Saving the image for four-colour printing

Matching colour schemes across images

Stitching a panorama

Finishing the image

Editing Video

Creating a new video project

Animating text with keyframes

Creating effects

Adding transitions

Adding audio

Muting unwanted audio

Rendering video

Techniques

Painting with the Mixer Brush

About the Mixer Brush

Selecting brush settings

Mixing colours

Creating a custom brush preset

Mixing colours with a photograph

Adobe Photoshop: Advanced

Course Length: 1 day

Course Content

Working with 3D Images

- Creating a 3D shape from a layer
- Manipulating 3D objects
- Adding 3D objects
- Merging 3D layers to share the same 3D space
- Positioning objects in a scene
- Applying materials to 3D objects
- Lighting a 3D scene
- Rendering a 3D scene

Preparing Files for the Web

- Creating slices
- Exporting HTML and images
- Using the Zoomify feature

Producing and Printing Consistent Colour

- About colour management
- Specifying colour-management settings
- Proofing an image
- Identifying out-of-gamut colours
- Adjusting an image and printing a proof
- Saving the image as a CMYK EPS file
- Printing

Q&A
